ABOUT ME

Frontend Developer with 4+ years of experience building responsive and high-performance web applications using **HTML5, CSS3, JavaScript, and jQuery**. Skilled in debugging, performance optimization, and cross-browser compatibility.

Strong understanding of UI/UX principles and modern frontend practices. Experience collaborating with backend and QA teams to deliver scalable applications.

Currently upskilling in **React and automation testing**, aiming to build efficient, user-focused applications.

EXPERIENCE

Amrita Create, *Front End Developer*

2022 – Ongoing

- Developed and maintained responsive web applications using **HTML5, CSS3, JavaScript, and jQuery**
- Improved application performance by **reducing page load time by ~30%**
- Identified and fixed UI bugs by analyzing browser behavior and debugging JavaScript
- Built reusable UI components to enhance development efficiency
- Ensured cross-browser compatibility across Chrome, Firefox, and Edge
- Collaborated with backend developers and QA teams for seamless integration

EDUCATION

Mahatma Gandhi University,

2018 – 2021

BACHELOR OF COMPUTER APPLICATION (BCA)

- Project Works
- Travel Management (mini) (**PHP, HTML, MYSQL**): Gained expertise in managing and optimizing travel-related processes and systems.
- Ration Shop(major) (**Android, JSP, SQL**): Studied the logistics and administration of ration distribution and inventory management.

IGNOU UNIVERSITY,

2022 – 2025

MASTER OF COMPUTER APPLICATION (MCA)

- Major in Software Development
- Project (**Python Django**): Developed a water booking app named Dewdrops, which can streamline the booking process for users and improve the management efficiency for service providers.

TECHNICAL SKILLS
